

Lyrics

don't tell me what you are thinking about
don't tell me
don't tell me why you are laughing out
just help me
help me
don't tell me why you are leaving now
just leave me
now we stand together

now we stand together

a stranger from far
he knows what to do
I didn't know him
but he knows what I'm going through

expecting nothing
just a helping hand
comming with his friends
from all over the land

now we stand together
now we stand together

faster than fast
dogs came out the muddy dust
they came to plunder
they came to steal
can't believe
that this is real

dogs smell our misery
dogs smell we are so weak
dogs bloody destiny
dogs will find the leak

quickly mask as helping cop
dogs appear as awful mob
they came to plunder
they came to steal
can't believe
that this is real

dogs smell our misery
dogs smell we are so weak
dogs bloody destiny
dogs will find the leak

dogs smell our misery
dogs smell we are so weak
dogs bloody destiny
dogs
we will get you
and nobody will miss you

susan
you are right

after two weeks we are out of sight

no new facts
no curious acts
no world reacts

this is the game we can't change
But susan do you know how it feels

now we stand together
now we stand together
