

Beyond

Lyrics

Where are my footprints on the moon
Where are my footprints on the moon

missed the moon
lose the grip
drifting in space

Where are my footprints on the moon

deep void inside
unable to move
I can't believe the odyssey failed
turning the knobs as in trance

Where are my footprints on the moon

call of divine
will I die
am I alive
completely lose controll

Where are my footprints on the moon

facing the moon
ready for earth
ready to awake
to end this nightmare

Where are my footprints on earth
