

## Out Of The Void

### Lyrics

---

in the void you get lost in time  
I throw a chick, can't cross the line  
a cop without head is talking to me  
I see your words don't speak to me

out of the void god say to me  
hit the cop and you will be free  
in the void you'll get lost in time  
throw a chick and cross the line

noone is asking whats going on  
it's all common, Im driving too long  
some chiks are fat, some chicks are thin  
I aim the cop, he don't waves me in

out of the void god say to me  
hit the cop and you will be free  
in the void you'll get lost in time  
throw a chick and cross the line

out of the void god say to me  
hit the cop and you will be free  
in the void you'll get lost in time  
throw a chick and cross the line

the cop without head is still talking loud  
his words are lost, he can't reach the croud  
hit him proper, with the next fine chick  
he release the crossing, Im driving quick

out of the void god say to me  
hit the cop and you will be free  
in the void you'll get lost in time  
throw a chick and cross the line

get out of the void  
get out of the void  
get out of the void

---

little by little time stood still  
presenting me, the master's bill  
little by little I'm getting weak  
I can't move, I'm falling deep

The snake is watching me !

little by little the train moves on  
I'm standing here a bit too long  
little by little the fear comes near  
you calling me, but I can't hear

The snake is watching me !  
The snake is watching me !

little by little and step by step  
the more I want the less I get  
little by little the snake comes near  
I waste my time with senseless fear

The snake is watching me !
